Brand New Book ***** Print on Demand *****.In a story of secrecy, criminal allegations, and intrigue, the author delivers a personal account of his professional experiences at the Rocky Flats Plant -- a government-owned facility located northwest of Denver, Colorado -- which produced nuclear weapons components for the U.S. national defense program. In the early part of his career as a research and development chemist at Rocky Flats, the author observed the diligence and camaraderie of colleagues who worked in secrecy to produce the weapons components deemed essential to our nation's defense program.
